How to Get "The Ellington Look" in Your Home

Makeover Tips from The Ellington Interior Designer Audrey Long as seen on ABC's Channel 6 Action News

Out with bathtubs! The new trend in bathrooms is a spa-like shower. Here at The Ellington, our bathroom is outfitted with an oversized dual shower system for two. We've used cool Carerra marble to add elegance to the room and combined it the our neutral color palette of chocolate brown and taupe to really give the room warmth.

We really wanted to create a feel of sumptuous luxury in our bedroom. Again, we've opened up the space with an oversize king bed and a striped wallpaper finish behind it to draw the eye up to the high ceiling and out to the surrounding uncluttered calm space. A whimsical accent piece is the chandelier at the foot of the bed. Lighting is so important to set the mood in a bedroom, creating a place to relax, unwind, and destress from the world outside.
